

## ***Legal Awareness***

There are two types of communities will arrive like (Construction company will provide shelter and provide basic amenities and other will seek their own shelter in Govt. /non-used lands out skirts limits). Any disputes raised by local people also will be resolved with mutual concerns.

Various civic issues like shelter/water/sanitation etc. will also be taken (As a case study in Marathalli we have about 300 house developed by Slum Board of India with a long legal fight and with the cooperation of Govt. of Karnataka we could able to give justice to these families.)
